

HOMA SUBMERSIBLE PUMP TGR 15WA

Submersible pump with cutter / grinder system for sewage and effluent

APPLICATION

Suitable for pumping sewage and effluent from domestic sewer systems up to main sewer line.

DESIGN FEATURES

- Single stage centrifugal pump with horizontal discharge
- Open multi-channel impeller
- Cutter system at pump inlet consisting of stationary cutter ring and blade rotor
- Pressure tight electric motor single phase
- Large diameter stainless steel rotor shaft
- heavy duty pre-lubricated bearings
- Combination of mechanical seal and lip seal in oil chamber
- Supplied with float switch

TECHNICAL DATA

Part Number	TGR15WA	Weight (kg)	19
Motor (kW)	1.5	Outlet (mm)	50
Power (Volts)	230	Full Load Current (A)	7.0
Pump Dimensions (mm)	473 x 248 x 211	Speed (rpm)	2900
Phase	1	Cable Length	10 metres

Pump Performance
